Detail oriented and motivated to stay on task, meet timelines and accomplish goals. I create appealing and unique ui designs for users, which is guided by knowledge of user research, prototyping, typography and color theory. My design thinking focuses on emphatic thinking and innovative strategy that enables me deliver consistent and engaging user experiences.

---

## Professional Experience

---

### Zuri International UI/UX Designer

03/21 - 07/21

- Conducted UX research and organized user interviews, which was used to create a design roadmap for an online donation app.
- Designed low fidelity and high fidelity wireframes, and a clickable prototype for an app where people can donate their clothes online.
- Redesigned main features of an app by replacing vague features with clear calls to action which increased user's satisfaction and engagement by 30% during the usability testing.
- Collaborated with a team of frontend and back end developers to solve workflow issues, and create a clickable app for online examinations.
- Worked on projects using knowledge gained in the internship classes to put together recommendations for issues.
- Presented design project in an engaging and professional manner to a team of lead designers.

### Portfolio Design UI/UX Designer

- Created wireframes and clickable prototype for a minimalist portfolio website
- Developed on clients ux ideas, which won them their first freelancing gig.

### Arthur Nylander Chamber Student Legal Intern

11/20 - 12/20

- Gained operational knowledge and experience and supported departmental needs
- Conducted extensive research to develop cases.

---
